1

EXTREME EASE OF USE

In a few minutes time Dolcina Pro can perform full-size prints without any intervention of the operator to adjust the height of the printing head, without waste of ink, therefore making accurate prints possible with less efforts, less waste and more savings.

2

IMAGE VERSATILITY

Possibility of printing different shapes and images with extreme accuracy, both on wide surfaces, like cakes, and on small surfaces such as biscuits, macarons and pralines. Excellent print definition.

3

AUTOMATICALLY ADJUSTABLE HEIGHT

The automatic height sensor ensures that the nozzles are always placed at the ideal distance in order to realize high definition prints without waste of ink.

4

DIRECT PRINTING ON THE SUPPORT

High print resolution and the possibility of obtaining graphics of high fidelity to the original artwork even on soft surfaces such as gelatines, creams, icing sugar and much more.
